

2-1 Walking Rates Homework

Name _____ Per. ____

Kanako walks 10 meters in 3 seconds.

1. What is her walking rate?
2. At this rate, how long does it take her to walk 100 meters?
3. Suppose she walks this same rate for 50 seconds? How far does she walk?
4. Milo walks 40 meters in 15 seconds and Mira walks 30 meters in 10 seconds. Whose walking rate is faster? Explain how you know.
