

## 5-7 Context

Name \_\_\_\_\_ Per. \_\_\_\_

Define your variables, write an equation to represent the situation, and write the answer in a complete sentence!

1. Fred bought four new baseball trading cards to add to his collection. The next day, his dog ate half of his collection. There are now only 35 cards left. How many cards did Fred start with?
2. On Monday, 529 students went on a trip to the zoo. All nine buses were filled and seven students had to travel in cars. How many students were on each bus?
3. Sarah had \$199 to spend on six books. After buying all six books, she had \$13 left. How much did each book cost?
4. Sally bought nine candy bars and a soft drink for \$4. She spent a total of \$31. What was the price of one candy bar?
